

## SALE OF FARM PROPERTY

Tenders will be received for the purchase of the N.E. 1/4 of Sec. 16-29-24 W. of the 4th Meridian, Alberta, until 12 o'clock noon on Saturday the 15th day of January, 1927.

Tenders must be made in a sealed envelope addressed to the Master in Chambers, Calgary, Alberta, and be accompanied by a marked cheque for five per cent of the amount of the tender. No tender for less than \$2100.00 will be considered, and no tender necessarily accepted.

The property will be sold subject to 1927 taxes, the balance of purchase price payable as follows:

20 per cent within sixty days in cash without interest, to be paid to Bennett, Hannah & Sanford, Bar-risters, Calgary, Alberta, the balance to be paid into court in three equal instalments, six months, twelve months and eighteen months from date of sale, carrying interest at eight per cent per annum.

The property is three miles from the Village of Grainger. 60 acres have been cultivated and the soil is a chocolate loam of good depth. Other improvements include a house 24x20, 1 1/2 storeys, log stable, shed 18x24, 1 storey and basement, also a shed 8x12 and old frame stable.

Further information may be obtained from Bennet, Hannah & Sanford, Lancaster Building, Calgary, Alberta.

Dated at Calgary, Alberta, this 18th day of December, 1926.

A. G. CLOMES,  
Clerk in Chamber

## SCHOOL REPORT FOR TERM ENDING DECEMBER

### GRADE V

B. Peters, S. Atkinson, G. English, S. Nash, C. Birch, P. Dodyk, P. Greenan, M. Oliphant, A. Wise, M. Wiertz, H. Poxon, S. Poxon.

### GRADE IV

H. Trumbley, R. Black, W. Skerry, F. Code, B. Johnson, V. Pimm, H. Campbell.

### GRADE IV Jr.

M. Livingston, G. McGregor, M. Mortimer, A. Jewell.

### GRADE III

W. Harvey, D. Kaiser, C. Black, B. Oliphant, L. Dolphin (absent).

## Gamble Items

Gamble held their annual school meeting last Tuesday. The retiring trustee was reelected. The teacher's and auditor's reports were very satisfactory, the financial statement showing a substantial balance on hand. It was decided to pass a by-law to build a new school house in the center of the district, and the secretary was instructed to take the matter up with utility board.

H. B. Congo spent last Wednesday and Thursday at Three Hills.

Miss Mary Hart is spending a few weeks in Calgary with Mrs. J. Clayton, who has been ill.

Mrs. Forsyth and children who have been visiting Mrs. Congo, returned to Calgary this week.

Last Wednesday the Huxley and Grainger District U. F. A. held its annual meeting at Three Hills. A. B. Claypool gave a talk on live stock and its benefits. The farmers through this district feel that

## COUNCIL HOLDS FIRST MEETING

At the first meeting of the new council, held on Jan. 3rd., Jas. McLeod was again appointed reeve, Dr. McFarlane Health officer, W. Leitch pound keeper, and Alex Reid sec.-treas. of the Village, this making the tenth year that Mr. Reid has filled this position.

The dog, dray and taxi licenses were set at the same amount as last year.

A resolution was passed that the council take steps to see that all ashes or rubbish is piled on the persons own ground and removed in the spring, instead of being thrown in the streets and lanes, as has been the case in many instances.

## CHECKER PLAYERS HAVE STARTED TOURNAMENTS

The beginner's tournament for checker players commenced last night, Jan. 12th., at the local club rooms. There are six entries, and the games played were as follows:

F. Seymore vs R. Barr.  
W. Poxon Jr. vs L. Poxon Jr.  
L. Totton vs B. Heath.

The club sealed handicap championship also commenced last evening, 12 entries being on file.

Both tournaments will continue for the next few weeks.

## Country News

Fred Shell returned last week, after spending New Year's in Calgary.

J. M. Ohlhauser was visiting his uncles, Fred and Jacob Ohlhauser,

they are not getting a square deal from the government inspectors in the grading of their grain, this year especially. It seems that very little can be done to help matters, but the following resolution was passed:

Whereas: As the grading of the wheat in the years 1925-6-7 has been most unsatisfactory to the producers, therefore, be it resolved that special legislation be passed, or the grain act amended, granting the Canadian Wheat Producers the privilege of grading all wheat handled by the government. And that a copy of this resolution be sent to the annual convention, the Wheat Pool and the members of parliament for Alberta at Ottawa. Other resolutions were also passed. J. McCubbin of Ghost Pine was elected president of the local association, the secretary to be named later.

## CARBON LODGE A.F. & A.M. NO. 107, INSTALL OFFICERS

At the regular meeting of the Carbon Lodge, A.F. & A.M., held on Tuesday night, W. A. Braisher installed the following officers: W. Bro. V. B. Hawkins, W.M. W. Bro. S. N. Wright, I.P.M. Bro. G. W. McMeil, S. W. Bro. R. H. Purdy, J. W. W. Bro. S. F. Torrance, sec'y, R. W. Bro. W. A. Braisher, Treas R. W. Bro. J. A. MacDonald chap-lin.

Bro. W. H. Bruels, S.D. Bro. T. J. King, J.D. Bro. C. A. Pratt, S.S. Bro. J. Oliphant, J.S. Bro. R. Heath, Registrar. W. Bro. R. Fairbairn, organist. Bro. R. A. Boyle I. G. Bro. W. Poxon, Tyler V.W. Bro. F. J. Bessant, D. of C. W. Bro. L. Poxon and Bro. A. H. Jealous were appointed auditors.

in Calgary last week.

Miss Ella Neher has returned to Three Hills, where she is attending the P. B. I. School.

Mr. and Mrs. Ed. Schell went to Trochu on Friday to visit Mrs. Schell's parents, Mr. and Mrs. J. Weigum. They returned Tuesday.

A number of young people gathered at the home of Adam Ohlhauser on Sunday night and had an enjoyable evening. However, the trip home was not so pleasant. Buyers and Schells had a tip in their bob sleigh and J. M. Ohlhauser ran into a fence, although no one was hurt.

Misses Agatha and Martha Knecht of Calgary, were visitors at the home of Mr. and Mrs. Sam Eslinger.

A Farewell party took place on Sunday night at the home of Mr. and Mrs. Geick, in honor of Mr. Henry Kary, who left Monday for Washington.

## Swalwell

Messrs. W. E. Howe, F. J. Tricker and W. E. Mann made a business trip to Trochu on Tuesday.

Mrs. Fred Jennings returned to Swalwell on Tuesday after a long visit to her people in Rockyford.

At the Roseview annual school meeting much of the interest was the proposed moving of the school to the centre of the district. E. S. Young was elected in the place of F. K. Paget, the retiring member.

The Swalwell annual meeting was held during the week and the retiring member was re-elected.

The stormy petrel was hovering rather persistently over the annual meeting of the New Hope School, and heated debates were the order of the day. Here the retiring member was also returned, his own vote for re-election deciding a tie.

Congratulations to Mr. and Mrs. D. Brodner on the birth of a son.

The new sheet of curling ice will be completed ere this is in print and Swalwell can now boast of as good a rink as any town along this line.

Mr. and Mrs. M. Dougherty are also to be congratulated on the birth of a daughter.

We are pleased to be able to report all Swalwell patients (which are many) now in the hospital in Calgary, are all doing well.

Roy Shreeve is moving his harness shop into the main street recently vacated by Powers Bros.

A number of Swalwell business

## LABORER UP ON SERIOUS CHARGE

Edward Werth, who was working at the Shannon mine during the month of November, and since staying with friends near Calgary, was up before magistrate Braisher on Monday Jan. 10th. on two charges, one of forging a check for \$240 on Nov. 12, 1926, and the other for presenting a forged check the act taking place at the Carbon branch of the Bank of Montreal.

Werth was found guilty on both charges and was remanded for trial at the next assizes at Calgary.

R. H. Purdy accompanied the prisoner to Calgary on Monday, where he will await his trial.

## Red Trail Items

Sam Tetz was rushed to the Calgary hospital last Friday, where he underwent an operation for appendicitis.

Jake Trebuasser just returned from the Canadian Junior College, where he has been visiting his sister the past couple of days.

Mr. and Mrs. Ed. Becker returned last week from Calgary, where they were visiting Mrs. Becker's parents.

The heavy weight champion of the Carbon dog family suddenly fell dead on Friday last, the result of poison. He is greatly missed by his boss.

men attended the funeral service at the Mennonite Church on Sunday last, of the late Mrs. W.K. Giesbreicht.

The Carbon Chronicle

## Canada's Diamond Jubilee Year

Canada enters the new year with as bright prospects as ever faced the Dominion. There is not one dark cloud on the national horizon. All reputable authorities are in agreement in predicting that the steady progress and general betterment in conditions which marked 1926 will be continued on a still larger scale in 1927. The heads of all our chief banking and influential institutions, the executives of our railways, our captains of industry and commerce, our political leaders, all foresee great advancement for Canada throughout the new year.

There are substantial grounds for their optimism. Apart from seasonal unemployment which, of necessity, is always prevalent during the winter months, employment generally remains at a high level. Nor are there any lowering clouds on the labor horizon in the shape of strikes or other industrial upheavals. Business in all lines has been good, and promises to be better. The foreign trade of Canada, and the balance of that trade in favor of the Dominion, steadily increases. Building activities, and works of construction of many kinds, which showed remarkable expansion in 1926, give every sign of attaining new high levels in the new year.

Depression and lack of national confidence which at times have afflicted the people of Canada are conspicuous by their absence as the Dominion enters upon the sixtieth year of Confederation. Coupled with the improved economic situation, the decisions of the recent Imperial Conference conferring a new status upon the Dominion, have had the effect of causing Canadians to hold their heads up and of giving them a new confidence, a greater national pride, a new sense of importance and power.

It now remains for the citizens of Canada to grasp the opportunities before them, and by all means within their power give impetus to the forward movement. With Federal elections behind us for some years our Parliamentarians can well afford to devote their undivided attention to the solution of those problems and questions which call for constructive action. Parliament should begin the celebration of the jubilee of Confederation by being a business Parliament rather than a partisan one. It can do much toward realization of the fond hopes of all Canadians for 1927 and can set a high standard for all to follow.

Experience has proven that reductions in taxation result in an almost immediate stimulation to business, followed by increased prosperity. The United States has proved it and Canada experienced it in 1926. The Government is pledged to a policy of further tax reductions in 1927, and it is hoped the Finance Minister will show real courage in this respect and go the full limit consistent with sound finance and the revenue requirements of the country, at the same time bearing in mind that lower taxation, will so stimulate business as to produce large revenues. A courageous policy in tax reduction will create still greater confidence.

Coupled with tax reduction, and business-like economy in the administration of public affairs, and energy in further developing the export trade of the Dominion, a far-reaching and comprehensive immigration policy which will result in bringing to this Dominion that increased population which is one of its most urgent requirements, will go a long way to making 1927 the banner year of Confederation.

The new year will see the Hudson's Bay railway nearing completion, thus realizing one of the long cherished dreams of the West. It is to be hoped the new year will likewise witness the inauguration of policies calculated to assist the Maritime Provinces to solve their particular problems and place the far eastern section of the Dominion on the highroad to industrial and agricultural rehabilitation and prosperity. Only through the development and prosperity of the extremes of Confederation can contentment, the creation of a sound national pride and sentiment, peace and progress be brought to the whole Dominion. It will be worth almost any sectional sacrifice to bring this about. It is a worthwhile work to occupy the best minds and energies of the Canadian people in their year of jubilee.

And inasmuch as united national action is but the sum total of individual opinion and unity of purpose it behooves each citizen of Canada to take a broad view of Canadian questions, to cast aside his partisan and sectional spectacles, and with clear vision apply himself to the patriotic task of helping Canada along the road of high destiny so manifestly marked out for it.

### Grain Commissioners

#### Issue New Regulations

Rules Regarding Drying of Grain Have Been Altered

Changes in the regulations regarding the drying of grain have been issued by the Board of Grain Commissioners for Canada.

"All wheat, barley, rye and oats, the moisture content of which has been determined by the board's inspection department, whether received by public terminal or private terminal elevators, shall be subject to the terms and conditions relating to the handling of rough or damp grain as provided in the present elevator tariffs. Adjustment shall be made on the following basis of moisture content to cover loss in drying:

"Wheat, barley and rye graded tough shall be adjusted to a drying basis of 13 per cent moisture content; graded damp containing 17 to 20 per cent moisture, 12.5 moisture content; graded damp over 20 per cent of moisture, 12 per cent moisture content.

"Oats graded tough shall be adjusted to a drying basis of 12.5 per cent moisture content; graded damp adjusted to 12 per cent moisture content.

"On all rough oats and barley the moisture content of which has not been determined the elevator on drying the same shall be entitled to deduct 3½ per cent from the amount as shown on the outstanding warehouse receipts to cover the loss in drying."

It is also announced that oats, barley or rye graded tough shall only be dried at the request of the owner and that the drying of all grain shall be under supervision of the Board of Grain Commissioners through its inspecting officers.

Only 12 feet long, the railway station at Blackwell Mill, Derbyshire, is claimed to be the smallest in England. There is only one train a week, for the use railway servants and their families, who pay no fares.

W. N. U., 1961

### The Speediest Thing

Scientists are Always on Rate That Light Travels

Twice a year the National Academy of Sciences—between two and three hundred of the most eminent scientists of the nation, chosen because of what they have done—meets in some centre of learning. This is the select body of our scientific world; it corresponds to the Royal Society in Great Britain and it is altogether more of a mutual admiration society than a "mutual admiration society"; extremely few members are honored by membership before their fortieth year and the majority not until after their fiftieth.

The autumn meeting of the Academy was held this year in Philadelphia. We shall not comment on more than one of the many papers delivered. The one that appeals most to our interest is that concerning Professor Albert A. Michelson's recent redetermination of the velocity of light. The speediest thing in existence—so far as is known—is light. It travels about 186,000 miles a second, which is many times faster than the human intellect can conceive. "About" 186,000 miles, we say, because science cannot ever hope to give its precise rate of speed; the best that can be done is to whittle finer and finer the point of accuracy. So when we whittle even finer and say 186,182 miles a second, we still drag in an "about," though a relatively smaller one. Lately Professor Michelson, now a man of seventy-four and conceded by all to be the dean of American physicists—also the world's foremost authority on optics—has been whittling still finer. He has refined the 186,182 miles to 186,173. This is what he told the National Academy, of which, by the way, he is president.

### Wheezy Chest Colds Subdued Over Night

Trained Nurse Tells How Colds Are Quickly Broken Up

### NERVILINE

A Home Necessity

Speaking of valuable home remedies that every mother should always keep on hand, Nurse Carrington says: "I haven't met any preparation more dependable than 'Nerviline.' It is the ideal liniment; every drop rubs in—it is absorbed quickly, eases and relieves congestion in a short time. For chest colds, pain in the side, stiff neck, earache and toothache, I have found Nerviline invaluable. In treating the minor ills that arise in every home, nothing is more efficient than Nerviline."

For nearly fifty years Nerviline has been a household article in thousands of Canadian homes. Get a 35c. bottle to day.

#### Considered Him Inferior

An Atlantic liner was coming into Southampton, and in the way was a grumpy little coal barge.

"Clear out of the way with that dirty old barge," shouted an officer.

A weatherbeaten face appeared over the cabin hatchway, and said: "Are you the captain of that vessel?"

"No," answered the officer.

"Then speak to your equals, I'm captain of this."

Soft corns are difficult to eradicate, but Holloway's Corn Remover will draw them out painlessly.

Moore: "Ah, so you tickle the ivories for a living, eh? Funny, I didn't know you were a pianist."

Watkins: "I'm not. I'm a barber."

### Became So Weak Could Hardly Stand

Mrs. Wm. Palmer, Temahawk, Alta., writes: "Last spring I had a long spell of sickness and became so weak I could hardly stand. I could not sleep at night as the least little noise would wake me up. I tried blood tonics and other nerve pills, but they did me no good, and I was getting worse. I wrote my mother about my condition, and she sent me three boxes of

After the first box I was feeling much better, so I kept on until I had used the three boxes, and now I feel as well as ever I did when I was a young girl." Price 50c. a box at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

### To Study Empire Defence

Canada Sends Two Representatives to Act on Board

Brig. Gen. A. G. L. McNaughton, C.M.G., D.S.O., deputy chief of general staff of the Department of National Defence, has gone to London, Eng., where he will be one of Canada's two representatives on an Empire-wide board for the study of imperial problems of defence.

Lt. Commander Charles Tascheren Beard, Royal Canadian Navy, is in England on the same mission.

The cabinet appointment of two prominent Canadian fighting men has brought to the fore a new departure for an extensive scheme of Empire defence in which the department will cooperate with the Motherland through which the groundwork of close technical cooperation in time of national stress will be laid. The board will consider the problems of defence from its broadest aspects, it is stated, and stress is laid on the fact that its discussions will be of a decidedly "defensive" character with no thought of "offensive" plans.

#### Reviving Old Habit

Snuff taking is again popular in English society, although it has not yet reached the open and above-board stage. "Persons of high social standing are now our most regular customers," said the manager of a West End snuff manufacturing firm. "They are still shy of performing in public, but very soon some strong-minded person of note will flaunt his snuff box in his club."

The platypus or duckmole of Tasmania is among the rarest of creatures, having the bill of a duck, the fur of a seal, and a pouch like a kangaroo.

"I had to sell my saxophone to get home, dad."

"Good. I'm glad to see you, son."

For Colds—Minard's Liniment.

## What This TRADE MARK Means To You

Next time you buy a loaf of wrapped bread from your Baker, look at the paper and see if the Appleford trade mark appears thereon.

If so, it means that your Baker is protecting his goods and protecting your health by using the cleanest and purest paper that he can buy. Most good Bakers now use Appleford wraps because they know that their goods will keep fresh longer and will be delivered to you in a sanitary manner.

When buying Waxed Paper for household use be sure and ask for PARA-SANI put up in rolls or sheets.

### Fought Against Kitchener

Sudanese Chief is Dead at Age of Ninety

The death at Wadi Halfa, of Osman Digna, the Mahdi firebrand in the Sudan war of the eighties and nineties, was reported in a Cairo despatch to the Exchange Telegraph.

Emir Osman Abubeker Digna, or "Osman the Ugly," as he was nicknamed, lived to be more than ninety years of age, notwithstanding all the battles he had fought. His origin has always been a matter of doubt, whether a pure native or of mixed native-European blood. He was originally a slave dealer and joined the Dervish Mahdi in 1883, when the latter revolted against the British.

Osman Digna became the Mahdi's right-hand man and fought Kitchener repeatedly; he also routed the Italians at Erythraea in 1896. The British captured and imprisoned him in 1900, and after keeping him for twenty-two years in a cell allowed him to reside at Wadi Halfa under supervision.

Worms, however generated, are found in the digestive tracts, where they set up disturbances detrimental to the health of the child. There can be no comfort for the little ones until the harmful intruders have been expelled. An excellent preparation for this purpose can be had in Miller's Worm Powders. They will immediately destroy the worms and correct the conditions that were favorable to their existence.

#### Refused Large Offer

Christmas card poets are telling how Tennyson declined the largest offer ever made for such greetings, when he was poet laureate. A firm of publishers offered him \$5,000 for 12 sets of verse of eight lines each, to appear under his name. Believing the offer incompatible with his position as a poet and especially as poet laureate, he declined the proposal with thanks.

Time has Tested It.—Dr. Thomas' Electric Oil has been on the market upwards of fifty years and in that time it has proved a blessing to thousands. It is in high favor throughout Canada and its excellence has carried its fame beyond the seas. If it were double the price it would be a cheap liniment.

#### First Burmese Woman Lawyer

Burma, known as the land of the pigeon blood ruby and the tinkling bells made famous by Kipling, has taken another step in its stride toward women's rights. Ma Pwahee, daughter of a Burmese official of the Rangoon municipality, is the first Burmese woman barrister. Ma Pwahee is the only Burmese woman to adopt the law as a profession.

Minard's Liniment—ever reliable.

### China's Chief Exports

The chief exports of China are animals, beans, bristles for brushes, chinaware, earthenware and pottery, cotton both raw and manufactured, fireworks, fish and fishing products, fruit, hemp, hides, mats and matting, medicinal herbs, oil, paper, silk, vegetables, straw braid, sugar, tea, tobacco and wool.

### CHILDHOOD CONSTIPATION

Constipated children can find prompt relief through the use of Baby's Own Tablets. The Tablets are a mild but thorough laxative which never fail to regulate the bowels and stomach, thus driving out constipation and indigestion; colds and simple fevers. Concerning them Mrs. Caspard Daigle, Darnham, Que., writes: "Baby's Own Tablets have been of great benefit to my little boy, who was suffering from constipation and indigestion. They quickly relieved him and now he is in the best of health." The Tablets are sold by medicine dealers or by mail at 25c a box from The Dr. Williams' Medicine Co., Brockville, Ont.

### Entitled To Peace Prize

British Navy Should Receive Award Says Bridgeman

Next year's Nobel prize ought to be awarded to the British admiralty board, in the opinion of the Rt. Hon. William C. Bridgeman, first lord of admiralty.

Addressing a political gathering in London, he made this announcement, claiming that Great Britain had fulfilled the obligations of the Washington conference more completely than any other country and that there was no greater force for peace than the British navy.

#### Asks About Alberta Pool

From far away Poland comes the request for information regarding the organization and methods of the Canadian wheat pool. This request has been received at the wheat pool office Calgary, from R. Mazurkiewicz, vice-consul for Poland at Montreal. He states that the information is for his government.

Soup is stated by some doctors to be the best appetizer before a meal, with tea and coffee as a second and third choice.

**BAKERS' OVENS**—Write for catalogue and list of used ovens. Hubbard Oven Company, 1109 Queen West, Toronto, Ont.

#### DAIRY AND POULTRY FARMS

**B**UTTER-FAT sixty cents per pound. Eggs thirty-five cents per dozen. These are the average prices paid farmers this year in the Chatham and Agassiz Districts, near Vancouver, B.C. Dairy and poultry farms in these districts can be purchased from us. Write for full information and tell us what you want. Grain-Eckert Co., Ltd., Agassiz, B.C.

## Prize Winner In Wheat Has Turned His Attention To New Variety Of Potato

Saskatchewan has for years been indebted to J. C. Mitchell, of Dahinda, for his amazing work with wheat. This son of old England has done much to develop better wheat strains, and three-times he has won the world's championship for wheat at the International Grains Exposition at Chicago. Now, many in Saskatchewan may be surprised to learn, he has been turning his attention to potatoes. He has produced "Mitchell's Excelsior," and it gives promise of being a spud par excellence. An interesting account of Mr. Mitchell's success with this new potato is given in the December issue of the Public Service Monthly, a publication issued by the Saskatchewan Government and which has to do chiefly with agricultural developments in the province.

Canada, as the Public Service Monthly points out, has scores of potato varieties, but, so far, the perfect potato has yet to be discovered. However, those who have seen and tasted the new potato "Invented" by J. C. Mitchell, believe that it marks a considerable advance over any variety grown in the West. It bears a stronger resemblance to the popular Irish Cobbler than to any other variety. But the Irish Cobbler is handicapped by having very deep-set eyes, which makes it unpopular with the thrifty housewife in that it is somewhat difficult to peel without sacrificing some of the meat along with the skin. "Mitchell's Excelsior" has very shallow eyes. It is declared even mearlier than the far-famed Cobbler, and epicures who have had the pleasure of sampling the new potato declare that it has a rich and delicate flavor peculiarly its own. While a white-skinned potato, it tends to more of a russet color than its relative and nearest rival, the Irish Cobbler, and a distinctive difference is that while the Irish Cobbler has a purple flower, "Mitchell's Excelsior" has a white blossom.

It is pointed out that J. C. Mitchell has been growing this potato for sixteen years, selecting, rejecting, roguing, and standardizing the variety until he was satisfied that he had a high yielding comparatively early, fine flavored, medium sized potato that was exactly what he wanted for his own table. It has been so popular in his own neighborhood that this year he decided to make it available to all Canada, and the first step was taken recently, at a meeting of the Saskatchewan Seed Growers' Association, to register "Mitchell's Excelsior." From the evidence laid before them, the Seed Growers' Association were satisfied that Mr. Mitchell had submitted to them an entirely new variety of potato, possessing many attractive qualities. The next step in the registration process was taken by the Seed Growers, who have now approved a recommendation to Hon. W. R. Motherwell, Federal Minister of Agriculture, that this potato be recommended to the Dominion Botanical Branch for certification. The next and final step will, should the result of experiments with the potato on the Dominion Experimental Farms come up to expectations, be to apply to the Canadian Seed Growers' Association for registration, in the same manner as Marquis and other registered standard grains are registered.

It was a fortunate day for Saskatchewan, and also for the West generally, when J. C. Mitchell came to the prairie country. And it was only by chance that he came. On coming to Canada he found himself stranded in the city of Hamilton, Ont. He had been a bookkeeper and he searched for employment there in vain. He was not an agriculturist, but there had been some noteworthy agricultural tradition in his family, and he decided to proceed to Western Canada and try his luck at farming. His record as a successful agriculturist in Saskatchewan requires no amplification. He has been the wheat king of the world, and now, as his success in potato production indicates, he is making a name for himself in other directions as well. As has been pointed out many times, and as has been shown in various other instances, the fact that men who come to this province without previous agricultural experience does not stand in the way of the most complete success on the land. The success of J. C. Mitchell reads something like an epic. He is indeed a citizen of whom all Saskatchewan is proud. — Regina Leader.

### Saskatchewan Honey Crop

Total Value of Crop is Estimated at \$37,801

Saskatchewan's 1926 honey crop was of a total value of \$37,801. It is estimated by the field crops branch of the department of agriculture.

Registered beekeepers in 1926 totaled 849 as compared with 687 registered in 1925 as required by the provincial Act. The 1926 production of comb honey was 31,198 pounds, the total value being \$8,583 at an average of 22 cents a pound. In addition 139,059 pounds of extracted honey were produced, the average price of 20 cents a pound giving a total value of approximately \$27,817.

It is estimated there were 2,862 colonies in the province on the spring count and 4,162 on the fall count.

1358

#### A Boys' Smart Two-piece Suit

This smart two-piece suit is quite simply fashioned and a style proudly worn by the young boy. The blouse opens at the centre front and has a convertible collar, long sleeves gathered to wrist-bands, and patch pockets. The side-closing trousers have four narrow loops of material sewn to the front and back to support a leather belt. No. 1358 is for boys and is in sizes 2, 4, 6 and 8 years. Size 4 requires 1 yard 36-inch material for blouse, and 3/4 yard 54-inch for trousers. 20 cents.

Our new Fashion Book contains many styles showing how to dress boys and girls. Simplicity is the rule for well-dressed children. Clothes of character and individuality for the junior folks are hard to buy, but easy to make with our patterns. A small amount of money spent on good materials, cut on simple lines, will give children the privilege of wearing adorable things. Price of the book 10 cents the copy.

The bankruptcy laws in Ireland date from 1872. Since then there have been improvements in the bankruptcy laws of Great Britain, but they were not applied to Ireland.

### Canada's Jubilee Gift

One Hundred Thousand Peony Blooms to be Sent to England

One hundred thousand peony blooms, the production of W. Ormiston Roy, of Montreal, will be sent to England next July, in honor of Canada's Diamond Jubilee. The Dominion Government has presented these to the British people as Canada's jubilee gift. Every passenger that sails from a British port during July will carry on board a bouquet of peonies, grown in Canada, donated by the Canadian Government, and additional to this peonies will be placed in the government buildings in London, in the newspaper offices, and in the homes of leading citizens.

Their Majesties and members of the Royal family will be asked to accept gifts of peony blooms.

### Grain Growers Prosper

Report Submitted at Calgary Meeting Shows Successful Year

Reports submitted to the annual meeting of the United Grain Growers Ltd., at Calgary recently, showed the best year in their history, with net earnings, subject to taxation, at \$676,378.35. This was nearly 50 per cent in excess of the previous year's business, approximately 43,000,000 bushels being handled. The total turnover in country and terminal elevators was 74,000,000. President Greer presided over 250 delegates.

### Canada Highway Act

Manitoba's Share in Highway Fund Now Total \$1,287,476

Manitoba continues to benefit under the Canada's Highway act, whereby the federal government appropriated \$20,000,000 to aid the provinces in construction roads. In the year ended March 31, 1926, for which the figures now are available, Manitoba received \$123,535. Bringing the total since the inception of the scheme up to \$1,287,476.

### Food Tablets For Cows

Food tablets for cows have been tried successfully by A. J. Hosler, a dairyman of Wexcombe House near Barborough, Eng.

The tablets are of Mr. Hosler's own prescription. He says that by experiments covering five years he had learned that milk can be produced at from four to six cents a gallon below normal cost. He keeps his cows in the open the year round and milks them by machine.

The Kodiak brown bear attains the greatest weight of all brulias, often weighing almost a ton.

## Many Misconceptions Regarding The Climate Of Canada Exist Through Lack Of Knowledge

Surveying the climatic conditions throughout Canada the Natural Resources Intelligence Service of the Dominion finds on the prairie provinces most healthful conditions. In a bulletin it says:

"In the prairie provinces of Manitoba, Saskatchewan and Alberta, the brightness, clearness, dryness and purity of the atmosphere are famous and it is these features which make those great plains such a successful wheat-growing country. Occasionally an intense heat or a severe cold wave will develop. In this respect Alberta is very fortunately situated, as the prevailing winds being from the West, the moisture gathered whilst crossing the ocean is shed either on the coast ranges of hills or else on the western slopes of the Selkirk and the Rocky mountains, the result being that a dry, warm air passes down to the plains below. Owing to the clear atmosphere it is possible to see 200 miles in certain parts of Alberta, as against an average of 50 miles elsewhere in the world.

The bulletin points out that the popular idea in Europe and in some parts of America, only up to within a very few years ago was, Canada was an ice-bound land. "This was very largely due to the fact that no distinction was made in the difference of latitude between Aklayik at the mouth of the Mackenzie river, and Leningrad in Essex county, Ontario. The former is well within the Arctic circle and the latter is about 30 miles southeast of Detroit and where tobacco, grapes and peaches are grown and ripened in the open. Of late years, however, a more enlightened view has been held, and Canada's much maligned climate given a clean bill of health.

"A variety of causes have operated to bring this about, the principal one being the improved means of travel by which world-wide conventions of learned and philosophic societies have been able to foregather in many cities throughout the Dominion and acquire a first hand knowledge of it. The same cause has enabled prominent statesmen, ecclesiastics, financial magnates and literary personages from all over this continent, as well as Europe, to see for themselves what advantages Canada has to offer, not only from a commercial point of view, but as a healthful and pleasant country either for residential or visiting purposes.

That it is healthful is evidenced by the fact that its death rate per thousand is by far the lowest on the continents of North and South America, and that it is pleasant is evidenced by the comparative freedom from lawlessness and disturbances. The summer months attract visitors from all over the continent to the delightful lake, river and mountain resorts, the winter months to the bracing winter sports for which full provision is made, and between times there can always be found some quiet, restful spot in close touch with nature, where the faded overworked nerves can regain their normal condition.

"An attractive feature which Canada has for most American tourists is the complete change in the small conditions of life which keep cropping out to interest and amuse them. The worst ailments that mankind suffers are not always physical, more frequently they are mental, and the remedy seems to lie in providing a continuous series of pictures which make a novel and unusual impression on the mind. This will work more effectively in what is officially termed a "foreign country" although close to home, rather than in one's own country, however far afield it may be. The physical senses will revel in clearer skies, brighter sunshine and cooler nights than can be found anywhere in Europe for the same latitudes. Autumn and Indian summer are, perhaps, the most delightful seasons of the year, whilst in winter the greater number of days are those of bright sunshine. The number of summer visitors coming to Canada for relief from the intolerable heat of some southern cities is yearly increasing, and in winter the outdoor sports of skiing, tobogganing and snow-shoeing attract an equally large number. Of the great benefits derived from attendance on either of these annual occasions there is no doubt, as not only do the same visitors come year after year, but they have an increasingly larger following."

### The Desirable Margin

Passenger in Speeding Car Hoped for the Best

The passengers in the big car speeding toward the railroad crossing began arguing whether or not they could beat the train.

"Don't get excited," said the driver. "I can easily make it."

"And I say you can't," shouted the front-seat passenger. "The train will beat us by twenty seconds."

"Gwan!" said the driver, who kept increasing his speed while the argument continued.

Finally a passenger in the rear seat, who had said nothing so far, remarked as he clutched the sides of the rushing car, "For my part, I don't care a hang who wins this race, but I hope it won't be a tie." — Boston Transcript.

### Names Of Countries

Many Used by Natives Unlike Those We Use

Did you ever think how unlike are our names for certain countries to those which the natives of those countries use? For example the Egyptians call their land Misr, the Persians call theirs Sumeran Tasavalia, the Persians know their country as Iran, the Estonians theirs as Eesti Wabariik, and Palestine is officially Filistin. The Irish Free State is Saorstad Eireann, Japan is Nippon, and Morocco is El Maghreb. That will do for today. — Youths' Companion.

### Saskatchewan Wheat Pool

On Dec. 16th, the membership of the Saskatchewan Wheat Pool reached 86,245, representing 10,612,182 acres of wheat signed up. The membership of the Coarse Grains Pool at that date is 37,907, covering the following acreage: Oats, 1,809,766; barley, 379,437; flax, 378,230; and rye, 112,569.

Mrs. Mulikids—"Your child seems to be teething. I always gave my children a silver dollar to cut their teeth on."

Mrs. Newglit—"Really I must give little Launcelet a hundred-dollar bill to bite on."

### Hunting Grounds That Make Men Happy

The Canadian hunting season that has just been brought to a close has been voted by experienced hunters, who have come to Canada for their fall outing, as one of the finest ever experienced. Game, big and small, was plentiful. Many camps reported deer and moose in abundance only a few rods from camp. This applied to northern Quebec, Nova Scotia, northern Ontario and British Columbia, the outstanding hunting grounds of this country.

Two American hunters, Captain Frank Doudera and Joseph Sartori called at the tourist department of the Canadian Pacific Railway in Montreal and asked for a trip to a real

hard hunting ground. The agent suggested the Cariboo Country, B.C. They went in for a month and on their return declared it was a hunter's paradise second to none. Captain Doudera explained that they had found what they were after—a hard country to hunt. But this he said put the real joy in a hunting trip. It was a case of man's sharpest wits against the unusual cunning of the game. They returned with several moose, three caribou, four mountain goats and four coyotes. They were satisfied and happy and reiterated the statement of every hunter that comes to Canada—that its hunting facilities are the finest in existence.

## CHAPTER XXIII.—Continued

A whimsical smile played with the corners of her mouth. "I remember," she said, "that you promised me, that first day at Yvonne's that you would be awfully fond of me." The smile disappeared, and left her wistful. "And I remember, too, that you are the only one, Teddy, who has turned out to be just what I thought you would be. All the rest are different than I expected."

"Are you, too, different than you thought you'd be?"

She laughed, gaily but all she said was, "Heaps!" After awhile she added, "But we mustn't reminisce, Teddy. It may transpire that some day I shall have nothing left but reminiscence. If that happens, I'll want them all saved up. You'll be one of the best of them."

He caught her hand, when she rose, and held her. She did not draw away, but stood quietly, her eyes meeting his. She was so close to him that he felt the warmth and tenderness of her, and that she was almost breathless. For one brief instant his brain went into a riot and he was dizzy. When his head cleared he felt her crushed against him, and realized that it was his own arms that were holding her there, holding her so tightly that already her lips were peeling. He would have dropped his arms and released her but she caught them, and let him understand that she was yielding. She was even holding her pale lips to him. When, at last, she stirred, he kissed her again, and then freed her. Before she drew back she said to him:

"I would like to love you, Teddy, and if I could, I would. No one has ever said so fine a thing to me as you have—that you'd not only want me but take me however I am. That is so different than being told that I'm wanted but mustn't be had! I'll remember it, whatever happens."

Before they reached the gates of the Villa Amette Joanna brought up his threat to do the sporting thing with Kenilworth. "I'd rather you'd not tell him that I know what has been in the past between him and Yvonne," she said. "It hasn't interested me at all, you know."

Somehow, Teddy thought, it did interest her. He was foolishly bitter about it, and resentful, which he didn't have a chance to show, however, because they were turning into the villa path and Joanna, with a hint of her crop, broke into a final gallop toward the stables.

Dorminster had all the Englishman's love for fine horses. He seldom returned for a ride with Joanna, and these rides through the fragrant beauty of the Riviera hills were as frequent as she would grant, that he did not watch the groom rub down their horses and perform the countless little services which the British stable master finds as necessary to his charges as are the administration of a watchful maid to the grooming of her dainty mistress. Both of the steeds they had ridden that morning had been his gifts to the Golden Girl, brought from the stables in Sussex he had inherited with his other fortunes. It was significant of him that while Roddy Kenilworth showered her with things made from diamonds at every excuse for a gift that presented itself, and while Brandon, with a finer sense, found rare bits of bijouterie for her delight, Teddy had made his horses, with exquisite trappings coming along in periodical installments.

Joanna left him among the grooms,

## Throat Husky?

Minard's Liniment gives quick relief. Rub it on the throat and chest.

W. N. U. 1661

## Mothers Treat Colds The New "Direct" Way

No Longer Necessary to "Dose" Children With Internal Medicines to Break Colds.

Children's digestions are easily upset by too much "dosing." Vicks Vaporub being externally applied, does not upset little stomachs.

At the first sign of croup, sore throat, freely. There is nothing to swallow—you just "rub it on."

**VICKS VAPORUB**  
OVER 21 MILLION JARS USED YEARLY

there were times when Joanna fancied that she glided in the thickets of her satellites. It was almost as if she deliberately invited it. And, then, there were other times, Joanna reflected, when she had surprised the weariness in the dense black eyes of the woman who had been, from her perspective, the ideal pattern in the minds of Miss Twenty-seven and her excessively modern kind.

Joanna had become so accustomed to riddles that she wouldn't fight them too long when they persisted in baffling her. A quick, nervous shrug of her shoulders was the sign that which ever way things went they'd get to where they were going anyway. She reached for her riding crop which lay at her feet. While she was clapping it she was conscious of voices that floated out from the rose hung window just above her.

She would have called out merrily, for one of the voices was that of Yvonne, but one word pierced her brain as sharply as a sudden shock. Yvonne was saying—John! Her mind just creeping from the thrall of her reverie, it was caught and held again. Joanna was totally unconscious for a time, that she was listening. Yvonne was saying:

"I don't imagine his coming will make much of a difference. If he told her of this visit, or if she knew of it, I doubt if she knows. It isn't a thing she would be secretive about."

The other voice was Brandon's: "Nevertheless he will have to be reckoned with. She hasn't seen him since she left America, and the situation is charged now. John Wilmore isn't the fumbling pauper student he was a year ago. He's aroused the popular enthusiasm. He is sufficient of a celebrity to be acclaimed in Europe."

"The homage people are paying him probably has ironed out some of the kinks in that comforted philosophy which irritated her when she wanted to find out how fast a pace she could go. He'll probably measure up fairly decently now."

Joanna felt the touch of irony in Yvonne's reply: "You'll hardly be afraid that he will measure up to you! Roddy is frankly worried by him. That I can understand because when Roddy goes on an emotional spree he seems a battle in every lone scout that gives his quarry a chance inspection. But you are usually confident. And, if I'm not mistaken, you hold the whip and can swing it, whenever you are ready."

(To Be Continued)

Thermometers are being used extensively by fishing fleets. Cod and haddock usually exist in waters where the temperature averages between 40 and 50 degrees.

"What's good for my wife's fallen arches?"  
"Rubber heels."  
"What shall I rub 'em with?"

There are fewer red-haired girls in the movies than any other type. Only twenty were found out of 2,100.

## Plan Lavish Opening For Anzac Capital

Canberra Will be Able to Accommodate 100,000 Visitors

Preparations on a lavish scale are being made for the opening of the new Commonwealth Parliament Buildings at Canberra by His Royal Highness, the Duke of York, in May. The federal authorities are planning to accommodate any number of visitors up to 100,000 to participate in the celebrations which will be carried out not only in this newly constructed capital, but at various seaports as well. Included in the program will be a brilliant military and naval review in which aeroplanes also will participate. About 50,000 are expected to go to Canberra to witness the opening, but plans are being made to accommodate a far larger gathering if necessary.

## Have The Right Idea

Scotland Has Shortened List of Studies in School

In no country in the world is there higher respect for education than in Scotland. And if Scotland feels that wisdom impels them to a shortening of the list of studies in the schools, other lands may well pay attention to that example. The Scottish belief is one that is growing. There is a strong feeling in this province that the curriculum is overloaded and that less stress is placed on the primary requisites of education than should be. No doubt our educators have given thought to this subject, but the situation might well be examined officially. Calgary Herald.

## Little Helps For This Week

With Thee is the fountain of life.—Psalm XXXVI, 9.

Thou, Lord, alone art all Thy children need.

And there is none beside;

From Thee the streams of blessedness proceed.

"Lead me, Man Divine,

Fountain of life and all-abounding grace,

Our source, our centre, and our dwelling-place!"

—Madame Guyon.

At the bottom of every man there is an abyss which hope, joy, ambition, hate, love, the sweetness of thinking, the pleasure of writing, the pride of conquest cannot fill. The whole world would not satisfy it; but, O my God! A drop, one single drop of Thy grace causes it to overflow.

—Joseph Roux.

**Dragged Down by Asthma.** The man or woman who is continually subject to asthma is unfitted for his or her life's work. Strength departs and energy is taken away until life becomes a dreary existence. And yet this is needless. Dr. J. D. Kellogg's Asthma Remedy has brought a great change to an army of sufferers. It relieves the restricted air tubes and guards against future trouble. Try it.

## Church May Become Dance Hall

One of the world's most famous churches, recognized as the most glorious triumph of Byzantine art, and built in the sixth century, may become a dance hall.

Unless worms be expelled from the system, no child can be healthy. Mother Graves' Worm Exterminator is an excellent medicine to destroy worms.

## Has Speeded Up Wireless

More Words Handled in Given Time Under New System

Because of Marconi's inventions in the perfecting of his equipment for conveying messages by wireless telegraph, people all over this continent, may be sending Christmas greetings to their friends and relatives in the old country by wireless.

Wireless for commercial purposes is not new, but the invention which was perfected last autumn has meant a great increase in the carrying capacity. By the new Marconi Beam service, which came into use in October, several times as many words can be handled in a given time as under the old system.

There is every prospect of a scientific pilgrimage to Wales and the North of England at the end of next June when an eclipse of the sun will be total in these parts of Great Britain.

## New Wheat Pool Members

Over Five Hundred Signed up in Saskatchewan During November

On Dec. 8, the Saskatchewan Wheat Pool had 89,130 members, covering 10,635,581 acres under contract. This means that since Nov. 30, members have been signing up at the rate of 15 each day. During the month of November, 516 new members joined the pool, which was an average for each of the thirty days of the month of 17. This is very gratifying and shows that the pool is becoming more popular in Saskatchewan every day.

## WORK WORN PEOPLE

Find New Health by Improving Their Blood

If you feel run down, it means that your blood is thin and watery, that your vitality is low. You do not sleep well and are tired when you rise in the morning. You find no pleasure in your meals and are listless and dispirited at your work. You have no energy to enjoy yourself.

Thousands of men are run down by anxieties of work. Thousands of women are broken down by their household toil, with tired limbs and aching backs, thousands of girls are pale, listless and without attraction. It all means the same thing—thin and watery blood, vitally run down, anemia, poor appetite, palpitating heart, short breath.

Do not submit to this. Get new blood and with it new vitality. There is no difficulty in doing this. Dr. Williams' Pink Pills build up and enrich the blood, which brings with it new health and vitality. The man, woman or girl who takes Dr. Williams' Pink Pills is never run down. Their friends notice how energetic they are, what a fine appetite they have and how much they enjoy life.

You can get these pills through any dealer in medicine, or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

"Fix bayonets!" roared the sergeant.

"Please, sir," quavered the very new recruit, "there's nothing the matter with mine."

**For Catarrh.**—It is one of the chief recommendations of Dr. Thomas' Electric Oil that it can be used internally with as much success as it can outwardly. Sufferers from catarrh will find that the Oil when used according to directions, will give prompt relief. Many sufferers from this ailment have found relief in the Oil and have sent testimonials.

## Winnipeg to Have Aerodrome

Gradually the Royal Canadian Air Force is establishing an aerodrome at Winnipeg. The air force annual report just issued, declares that attractive land adjacent to Fort Osborne barracks was purchased in 1922 and added to in 1925. Funds have not permitted of the erection of hangars and workshops, which will be built at a future date.

## Sneezing?—Minard's Liniment.

Between 5,000 and 6,000 deer are slain annually in the Scottish highlands.

It's usually the girl who never had a proposal who boasts of having jilted a number of men.

## Cuticura Heals Large Red Pimples On Face and Arm

"My trouble began on my face and left arm with large, red pimples that itched and burned causing me to scratch. Scratching caused eruptions, and my clothing affected the breaking out on my arm so that I had to keep my arm bandaged. The trouble lasted three months."

"I tried other remedies without success. I began using Cuticura Soap and Ointment and they helped me, and after using three cakes of Cuticura Soap and two boxes of Cuticura Ointment I was completely healed." (Signed) Miss Martha E. Finstad, 2017 Baxter Ave., Superior, Wis.

Use Cuticura Soap, Ointment and Talcum to promote and maintain skin purity, skin comfort and skin health; the Soap to cleanse and purify, the Ointment to soothe and heal, the Talcum to powder and refresh.

Sample Each Free by Mail. Address: Canadian Depot, "Sinhose, Ltd., Montreal." Price, Soap 25¢, Ointment 25¢ and 50¢, Talcum 25¢. Cuticura Shaving Stick 25¢.
